**AMERICAN LEGION OF ARMY VETERANS OPENS SESSIONS**

ST. LOUIS, Mo., May 8.—The American Legion, composed of men in the military or naval service of the government during the war, opened a three-day session here today with more than a thousand delegates representing practically every state in the country. Present, Lieut.-Col. Theodore Roosevelt, of New York, presided. Though little was accomplished at today's sessions save the formal opening of the convention and examination of credentials of the delegates, there were indications the caucus will not be an entirely peaceful one.

The sessions of the various temporary committees during the past two days have brought to light many differences of opinion. An effort is being made on the part of the national guardmen to exclude regular army men from the legion, although the temporary executive committee has voted to open the membership to all men and women who saw service in the war.

In addition to the regular army-national guard affair, many delegates today reiterated previous complaints that the legion would be "an officers' club" and that politics was being played in its organization. Another question which was brought up today was that of admitting negroes to membership. A group of Southern delegates, headed by Alabama, is lobbying against the admission of negroes, proposing they should be allowed to form an auxiliary organization.

The report of the committee on creed, which has been adopted by the temporary executive committee and placed before the convention, states that the American Legion has the following definite purposes:

1. To inculcate the duty and obligation of citizenship.
2. To preserve the history and incidents of our participation in this war.
3. To cement the ties of comradeship formed in service.
4. To protect, assist and promote the general welfare of all soldiers, sailors and marines.
5. To encourage the maintenance of individual and national efficiency to the end that the American people shall never fall in their obligation to humanity.
6. To maintain the sacred doctrine of undivided and uncompromising loyalty.

The caucus will appoint an executive committee to govern the organization until a convention can be held some time in November, when permanent organization will be effected.

Voting is on the basis of congressional representation of states, each state being entitled to twice as many votes as it has congressional representatives.

#### Get Well

It is indeed hard to stand at one side while the stream of life flows by. A man or woman consumed to sickness that does not permit him or her to perform the active duties of life, to do his or her share of the world's work, is a pathetic figure deserving of sympathy.

Much sickness, pain and misery result from disordered kidneys and bladder. Failure of the kidneys to do their work properly and filter impurities out of the blood leads to rheumatic pains, backache, sore muscles, stiff or swollen joints, puffiness under eyes, floating specks, biliousness, bladder weakness, nervousness, or other symptoms of kidney trouble.

#### Foley Kidney Pills

are effective in removing the cause of the trouble for they strengthen and invigorate weak or deranged kidneys and help them to normal functioning so that the blood stream is purified and the cause of disease removed.

F. M. Foley (Berkman), Sec'y, Switchman's Union, 515 Blair St., Peoria, Ill., writes: "Two bottles of Foley Kidney Pills relieved all symptoms of my kidney and bladder trouble, stopping the backache and pains, correcting the kidney action, clearing secretions. I am also free from distressing and floating specks before my eyes. Foley Kidney Pills cured me and have my permanent recommendation."
